What number should I call? If you prefer to call me, use the home Ex. 6 - Personal Privacy

Which compound? I printed the pph and dipph msds from Dow

I will need to call you around 11am about WV Spill. New compound is of interest and I would like your input.

Not many people here yet. Even 175 and similar roads are covered and icy.

Hi Cindy

I got the car shoveled out but my street is pretty icy. I have some microplastics papers to read, plus the ORD QAPP from Brian, and a video seminar from lgc. Will try to get a hold of Raj about the method

See you tomorrow

Are many people coming in?

Thanks

Jennie
